

## Group Visits Intech Science Centre

In February our Cubs and Beavers enjoyed a visit to Intech Science Centre near Winchester. We're unsure who had more fun 'playing' with the equipment, the children or the adults. While we were there we saw a show in the Planetarium which helped the Cubs with their Astronomer Badge. Trying the hands-on experiments also contributed towards other badges for both the Cubs and the Beavers. We were joined on this trip by our Assistant District Commissioner for Beavers and we thank her for giving up her day to be with us.
